Light Saturday Run and Quality Only Fair

TOPS STILL AT \$3.75

Good Showing For the Week in Quality and Receipts.

The Wichita bog market yesterday ruled Steady, with decreased receipts and lower tone of quality. The usual Saturday lethargy was apparent all through the day, both the wagon trade and the car stuff being light in run. The receipts were below those of a week ago same day, but the prices were stronger and the tops are cents nigher than then. There was \$1.5095.00; light weights, \$1.5095.00; medium, \$1.5095.00; light weights, \$1.5095.00; stockers and feeders, \$1.6095.00; light weights, \$1.5095.00; stockers and feeders, \$1.5095.00; butcher builts, \$1.5095.00; five cents higher than then. There was active or in any way impling. The average weight for the day was only 207 pounds, just 3 pounds under that of the The run was light and it would not be easy to say very much for the market, as there was hardly enough in to establish a market or give a fair statement as to features. The hogs re-ceived all received prompt attention and sold readily and at prices always steady with Friday's average, and in some in-stances fairly strong. What business there was was done up early, all the car stuff coming in in good season and the buyers taking it all at once. The demand was good and more hogs could have been used than were offered, even the lower grade of quality seemingly having no approach the check on the demand. The tops were \$1.75, only 25, cets? under those of the day previous, and the bulk was practically the same. The whole week shows up very well, the advance in prices being about an average of 7% cents. There has been a uniformity in top prices somewhat remarkable, \$3.75 being the top price for every day this week save two, one of which was \$3.774, and one \$3.674, the latwhich was No. 2, and one sales, the lat-ter being Monday, the low point. The quality for the week has been very fair on the whole, some days showing up good to extra. The receipts are over 1,000 in excess of the week before, and about the same in excess of the sam week last year. The trade has been active and firm and the general trend of the market strong and upward, more than holding its ewn with all the other live stock centers. The end of the harvest season sees the return of heavy receipts and better quality of hogs and the outlook from the reports REPRESENTATIVE SALES
